We got to go to this, I have been going every couple of years since I was a kid, they have EVERYTHING, except carp fishing gear, but hunting and fishing and boats and everything else. Its a great and fun way to let some money go.

Sounds like a great show but is there any entertainment for the kids? I like going to these outdoor shows as long as I can find a way to ditch the kids for a few hours and not listen to them saying "I want this" and "I want that". Do they allow people to set up their own losberger booths because I have a few poles and other things I wouldn't mind selling. Maybe we could get enough people together and not only spend money but make a little also.
