---

First fish of the season went to LongJohn who reeled a nice 31" carp to start the new season. Mike was hunting the elusive large cats and was taunted by little bites all night. Jack slid in later and tried to get in on the action and Sara tried for her first carp but the carp stripped the hook on some branches. Arron kept a great fire going and lara kids had a blast. I managed to sneak a nice one in on a ultra lite with 6# on it. In all it was a good night with friends and adventure. Hope to see the rest of the clan in the near future.

And this is my alibi.

:thewave:
