Eric,

You are more than welcome! Jack has freely shared much of his knowledge with us about the sport. We really have quite a good carp'n game because of that. I was taught to freely share what has been given. Plus I'm a Big Linux Computer "Geek" so I enjoy tweaking on the puter. Fishing is great fun and very relaxing, but even more so when it is shared among friends. I'm sure we'll thread boilies in person in the future. You have a great site at wvangers.com we all benefit from the fellowship and camaraderie.
