Re:education - USE FIREFOX

Posted by LongJohn - 2008/02/27 10:57

Instead of using MS Internet Explorer you should try Firefox as a web browser(FREE) it has built in spell check and tons of free add on modules (you tube downloaders, adblock modules, themes etc) Works with Windows and Linux

Mozilla Firefox Browser Here:
<http://www.mozilla.com/en-US/>

Add ons Here:
<https://addons.mozilla.org/en-US/firefox/recommended>
DEFINITELY get ADBLOCK + as an add on, cut's all the adds out of your browsing and your browsing works faster

Cool Themes Here
<https://addons.mozilla.org/en-US/firefox/browse/type:2>
I like NASA night Launch

Also Thunderbird as an EMAIL Client is the Best Email too, also Free!
<http://www.mozilla.com/en-US/>

Here's a good write up on LifeHacker about Firefox
<http://lifelifehacker.com/software/firefox-extensions/lh-top-10--must+have-firefox-extensions-246127.php>

Sometimes it's not how you use the computer, it's about what tools work best. Microsoft Explorer is not the best or the most user friendly!!!!!!

Firefox automatically corrected all my spelling mistakes in this post, no worries mate.

:hammer: :banghead:
