
Posting Pictures - Help UPDATED!

Posted by LongJohn - 2008/02/20 12:12

Please Note you can add pictures to forum posts but they must be no larger than 640pix width and 640pix height, and no larger than 100k

So resize your pics before posting!

EDIT: You have to resize them for the forum, it's set for nothing larger than 640x480 right now. I'll try to get a server side script to do this automatically, like in the galleries but I don't know if I can integrate it into the forum right now.

There is an easy program for M\$ Windows that allows you to do this

<http://download.microsoft.com/download/whistler/Install/2/WXP/EN-US/ImageResizerPowertoySetup.exe>

Ok, so for those of us who are computer and internet challenged, how the heck do you do that?

Re:Posting Pictures - Help

Posted by LongJohn - 2008/02/22 19:27

There are many ways to do it using the software that is on your computer, but in your case my friend, the easy answer would be to get your bride to show you.

EDIT: I posted a link on how to do it on the Front Page for you, should help.
