Ha:laugh:

Too much fishing gear, that's like saying you have too many gunsB)

Anyway, I have a Rod, Pod and Bite Alarms, and some Boilie Needles coming. But yes we get too many rods out there and there are just too many rods.

How about we use, I don't know.....Common Sense?:S

Carpus, I want to to do a HOWTO on the LED fishing rod to post on the site, Mine are already Modded so we need to MOD your xmas gift and take howto pictures. I also wanted to send the post over to Oatmeal for him to post as well.

Ready to get out the soldering iron and electronics for your battery operated fishing rod:woohoo:

Look whos got the F350 Truck and Boat. Rod limit I only fish with two rods any way. Next youll be limiting the number of flashlights one truck can carry, or how many first aid kits are aloud. Sounds like the federal conspiracy if you ask me. What about rod legnth, line wieght, how many candle power one rod can emit, number and type of bells. :woohoo: ;) :silly: :side: :woohoo: :silly: ;) :side: :woohoo: ;) :silly: :side: :woohoo:
